EARLY LIFE

FERDINAND MAGELLAN

Ferdinand Magellan was one of the greatest explorers in history. He was the person who led one of the most deadliest expeditions in history, and sailed the first voyage around the world. In the process he got murdered.

FUN FACTS

It took the ships 3 years to circumnavigate the world, and 43,000 miles. Only one ship made it back home.

Early Life

Ferdinand Magellan was born in oporto, Portugal in 1480. Ferdinand Magellan's parents where members of the Portuguese nobility. In an early age he learned cartography , astrometry and celestial navigation. His parents died when he was a 10 year old boy. Ferdinand Magellan as a young boy became a pager for the Queen.

Circumnavigation

When Ferdinand Magellan searched for fame and fortune he set out from Spain in 1519, with five ships to discover a western sea route to spice islands. The route that he discovered is now know as strait of magellan, and he also became the first european to cross the ocean. The trip was long and dangerous, and after 3 years. Only 18 people of the crew returned and on the beginning there where 270 crew members.

Final Years

Ferdinand Magellan was murdered when he was 41 years old in a battle. He did die but proven wrong to all the people how though that the world is flat. He also helped people understand that there is no such thing as sea monsters.

Ferdinand Magellan has helped us when no body else did, he helped us find the true shape of earth and died to prove us.
