

Journeys © 2017 Grades K–6

COMPREHENSIVE READING/ENGLISH LANGUAGE ARTS PROGRAM

More students are learning to read successfully with *Journeys* than with any other program.

Journeys © 2017 is a K–6 comprehensive, research-based English Language Arts program built on the foundation of the proven *Journeys* instructional design. Students are empowered by skill mastery, inspired by authentic, award-winning text, and are confident—confident in their problem-solving and critical-thinking skills, confident in their ability to analyze complex text, and confident that they are building the skills they will need for college and careers.

With *Journeys* in the classroom, teachers make a lifetime of difference in just 180 days by:

- **Ensuring college and career readiness.** *Journeys* addresses instructional shifts required by rigorous standards by providing proven instructional design, scaffolding, integrated differentiation, and digital enhancements.
- **Supporting today’s assessment expectations.** *Journeys* offers embedded, frequent assessments in an instructional design that mirrors new assessment models, providing regular formative data for teachers and supporting student achievement on state and district summative tests.
- **Differentiating instruction for all students.** *Journeys* provides differentiated support for all student populations. Scaffolding for English learners and intervention for struggling readers is embedded in core instruction and includes additional resources to provide support beyond the core.
- **Accessing learning anywhere and any time.** *Journeys* offers a seamless, consistent interactive digital learning environment that is reflective of the technology that teachers and students use outside the classroom.
- **Providing online resources that are vetted, current and topical.** *Journeys* offers vetted open-source content connected to the curriculum that assures both solid content for meeting standards and flexibility for supplementing lessons with open-source materials.

RESEARCH-BASED AND PROVEN

Journeys was designed using the latest academic and scholarly work about what constitutes good reading and English language arts instruction. The evidence-based practices incorporated into the program provide educators with the most effective tools and strategies to help children become confident, skilled readers.

Journeys program content and pedagogy were not only informed by academic research but also direct efficacy research. Since the first version of *Journeys* was created, over 25 research studies have been performed to evaluate the program’s effectiveness, and findings of that research have been used to improve and refine the instruction and structure of this program. Visit the program’s website at hnhco.com/journeys to download research reports and efficacy studies.

JOURNEYS

PROGRAM COMPONENTS

All print resources are also available in digital format. Unless otherwise noted, components below are available for Grades K–6.
